

## System requirements for

# NET Build

NET Build is the cloud solution for the digital construction site. All construction phases, from work preparation to project and field management, construction control and monitoring to invoicing and documentation of the work performed are mapped digitally. The solution includes two applications:

- Portal application: for scheduling and dispatching work orders during construction, incl. dashboard
- Mobile application: for order processing by construction crews in the field, including ticket system and photos (damage management), as well as measurements

	Minimum requirement	Recommended specification
<b>Operating System</b>	Linux	
	Windows	
<b>Webbrowser</b>	all common and current web browsers are supported	
<b>Mobile native APP</b>	Download via Android® or iOS® Store	
<b>Mobile devices</b>	Use of Android® or iOS®-based mobile devices: <ul style="list-style-type: none"> <li>• recommended: Tablet</li> <li>• User account per mobile device</li> </ul>	
<b>Mobile Access Requirements</b>	For iOS®: <ul style="list-style-type: none"> <li>• Current or supported iOS® operating systems, where those operating systems are up-to-date. For a listing of versions and statuses, you may use this <a href="#">link</a> as a reference.</li> <li>• No vintage or obsolete phone technologies (as classified by Apple – <a href="https://support.apple.com/en-gb/HT201624">https://support.apple.com/en-gb/HT201624</a>)</li> <li>• The Software will not operate properly on any device with less than 4GB of RAM.</li> </ul>	For Android®: <ul style="list-style-type: none"> <li>• Current or supported Android® operating systems, where those operating systems are up-to-date and continue to receive <a href="#">security updates</a>. For listing of versions and statuses, you may use this <a href="#">link</a> as a reference;</li> <li>• Standard Android fonts and sizing;</li> <li>• No vintage or obsolete phone technologies;</li> <li>• The Software will not operate properly on an Android Go device or on any Device with less than 4GB of RAM.</li> </ul>
<b>Screen (Portal Application)</b>	Full HD Monitor (1920 x 1080)	2 Full HD Monitor (1920 x 1080)
<b>Internet connection</b>	Mobile application: Offline-capable	Portal application: Permanent internet connection
