

# FULL STACK WEBENTWICKLER (m/w/d)

Support us in the expansion of high-performance fiber optic networks and become part of the TKI team. The familiar and relaxed atmosphere of a medium-sized company is waiting for you. We attach great importance to a mindful working environment with flexibility and individuality.

For more than 30 years we have been accompanying our customers through the entire network life cycle in the areas of consulting, planning as well as construction and operation. The expansion of the networks is realized with our own innovative software.

## TASKS THAT AWAIT YOU WITH US:

- Support our **international team of developers** in the **visualization of fiber optic networks** in our mobile web app.
- **Develop an exciting cross platform app** with Xamarin.
- You can expect **challenging HTTP requests** between clients, (Azure-)Cloud & web servers.
- **Write performance optimized backend code** to further develop our modern web app.
- You make our clients happy by implementing special requests and **designing your own conceptions**.

## WHAT YOU BRING TO THE TABLE:

- You have a **degree in computer science, geoinformatics, mathematics** or similar or alternatively professional experience in web development.
- Programming languages like **.NET, MVC, C# and Javascript** are in your blood.
- **Curiosity drives you forward and you are always on the cutting edge?** Very good, actively contribute your experience and ideas to find solutions for our web application.
- You like to **work in an international team** and **communicate very well in English**.

## AUSSERDEM BIETEN WIR DIR:

You get **30 days' holiday** and an **attractive salary** as well as a **company pension scheme**.

In your daily work you will benefit from our **open corporate culture** and the **uncomplicated teamwork**.

We also like to get together after work for **team and sports events** in a sociable atmosphere.

For an **optimal work-life balance**, you can take **advantage of mobile working** and our **flexible working hours**.

### **You would like to get an idea of our team spirit?**

We offer you the opportunity for a trial period as well as professional and individual onboarding.

We provide **high-performance hardware** and an **ergonomic office workstation**.

Our **in-house chef** prepares delicious meals for you in the TKI kitchen.
